Pre-Need Services

Alleviate some of the stress of making final arrangements for your family by choosing and creating your own monument now. Choosing your monument before the need arises ensures you are getting exactly the monument you want. Your family won't have to guess at how you would like to be remembered.

Many people consider designing and purchasing their memorial pre-need as part of their end-of-life planning. Having your monument designed and purchased prior to needing it is a tremendous gift to those who will grieve when you pass. Having your monument already set up at your resting place gives those who grieve a tangible reminder of you, and makes your resting place look more complete at your service.

If seeing your name on a headstone isn't for you, there are options. A monument purchased pre-need can be placed at your resting site, then your name and appropriate dates can be added at the time they are needed. Or, once the design of your monument is finalized, we can store it for you until it is needed. At the time of need, we will finish creating your monument. This option, however, doesn't guarantee placement prior to the funeral.

Purchasing your monument pre-need gives you control over the quality and design of your monument at current market value allowing you to beat the cost of inflation.

Please stop by our office or set up an appointment to discuss options for creating your future memorial. We are happy to help you with your questions and guide you in making these important preparations.
